

STEINMEYER MFP100

**Full-/Semi-Automatic Inspection system
100 mm measuring range**

Convenient and cost effective Universal dial gage checker for dial gages, dial comparators, lever-type test indicators and incremental and inductive probes

Desktop device with a measuring range of 100 mm (4 inch)

Time savings thanks to semi-automatic testing of analogue dial gages, dial comparators and lever-type test indicators and fully automatic testing of digital dial indicators

Strictly follows the Abbe comparator principle for achieving maximum measuring accuracy

Remarkable ease of operation

Software license DIALTEST satisfies individual needs through integration of national and international standards; works standards can be drawn up easily

**Measuring range: 0 - 100 mm (0 - 4 inch)
Resolution: 0.0001 mm
Error limits: $0.1 + L/100 \mu\text{m}$ (L in mm)**
